

## **Dave Ramsey wants to give you his online personal finance class for free!**

Rebuilding your finances after bankruptcy requires a plan. Dave Ramsey knows this all too well. By age 26 Dave had a net worth of a little more than a million dollars but lost it all and had to file bankruptcy. Dave went on a mission to find out how money really works. He developed a plan that got him back on track and took him further than he ever imaged.

Dave wants to give you the lessons he learned so that you too can rebuild your finances and grow lasting wealth. This class does not replace your court-required credit counseling and debtor education classes; it is a free gift to you from Dave Ramsey.
